## Approved CPE Provider for the State of Texas

**Dinah Zike Academy** [www.dzacademy.com](http://www.dzacademy.com) (830) 995-3800

Join us at the Dinah Zike Academy, a teacher training institute outside of San Antonio in the beautiful and historic Texas Hill Country.

In three-day, jam-packed sessions at the Academy, Dinah and/or DZA instructors will engage and immerse you in the power and potential of 3-D interactive graphic organizers, dynamic and efficient classroom organization, and effective teaching strategies across age-grade levels and content areas. Research grounding, implementation for a variety of learners, and practicality are built in. A maximum of 20 participants allows for hands-on individual and small-group work, technology use, and direct application to participants' teaching practices. Some institutes are cross-curricular and targeted to either elementary or secondary levels. Others are focused on specific content/subject areas such as science, mathematics, social studies, and reading/language arts.

The Academy is located in the historic and charming village of Comfort, Texas, in the beautiful Texas Hill country, 40 minutes from San Antonio and 1 1/2 hours from Austin. The most convenient airport is San Antonio International.

*"I just returned from the Dinah Zike Academy, and I'm overwhelmed with the vast amount of information provided. This is my 37th year in education, and I've never enjoyed a course of study as much as the Academy."*

Check the current schedule of course offerings at [www.dzacademy.com](http://www.dzacademy.com), or call 830-995-3800.

## Keynotes, Seminars, and Workshops (800) 995-3800 ext. 23 [sara@dinah.com](mailto:sara@dinah.com)

Dinah Zike or a DZ trainer is available for your school, university, convention, etc., for keynote speeches, presentations, K-12 teacher training, and staff development for:

- District-wide Staff Development
- Continuing Education Programs
- Conference Keynotes
- Student-Teacher Classes
- Visiting Instructor for Universities

Dinah is noted for presenting practical, effective instructional strategies using:

- Activities that reduce paper use district wide
- Activities that give teachers innumerable alternatives to photocopied sheets
- Activities that integrate language arts and content subject skills into the whole curriculum
- Activities that can be used for alternative assessment

Dinah does several different presentations, ranging from a 45-minute keynote and demonstration to a 3-hour inservice workshop. Participants leave the hands-on sessions with action-based, multi-disciplinary manipulatives that they can use immediately with their students.

*I am amazed at the wonderful ways in which you use paper instead of more expensive manipulatives. Your concepts are very clear...and very easy to follow. I am truly in awe of your unique presentation.*  
**Bill Patterson, Teacher, San Antonio**

# Big Book Series for Middle School And High School

Foldables® for Every Subject

Dinah has combined instructions for her most popular folds, full-color photographs of examples, and lists of thousands of ideas she has collected over her thirty years of inventing and using graphic organizers.

The lists of ideas are divided by the skill being taught, an activity to teach the subject or concept, and the number of foldable parts so you can quickly choose an appropriate graphic organizer. Books are subject specific and geared towards middle school/high school levels.

## Each Big Book features:

- ✓✓✓ Instructions for 30 graphic organizers
- ✓✓✓ 100 full-color photographed examples
- ✓✓✓ Five black-line art examples per page
- ✓✓✓ Thousands of graphic organizer ideas
- ✓✓✓ Reproducible graphics

## 4-12 Language Arts Book

This incredible 432-page photographic reference book contains over 1,600 color photos of Foldables®, Notebook Foldables®, and VKVs® (Visual Kinesthetic Vocabulary). It is organized alphabetically with sections including acronyms, analogies, antonyms, root words, synonyms, and more, with extensive word lists in each section. Spelling rules are noted in red within the word lists and throughout the book.

Special word lists are presented in Venn diagram format to graphically illustrate relationships between sounds and different spellings. Includes Foldables®, instructions and VKV® folding instructions! An amazing resource.

TCA Award winner featured in *Learning* magazine (Jan. 2011).

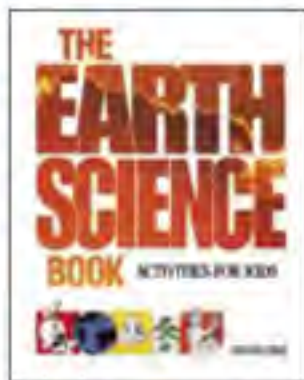

## Giant Classroom Periodic Table of Elements

Make an interactive Giant Classroom Periodic Table of Elements (60"W x 40"H), or reduce the size of these reproducible patterns to make individual element flashcards. Under each tab, students are prompted to fill in the atomic number, atomic weight, melting point, boiling point, properties, and history of the element. Packet includes 118 elements.

CCC79..\$10.00

## The Earth Science Book

*The Earth Science Book* overflows with dozens of easy-to-do activities that explain basic Earth science facts and important environmental issues. Using simple materials you can find around the classroom or home, these activities show you all about the planet Earth, its composition and atmosphere, life on Earth, and much more.

CCC92..\$12.95

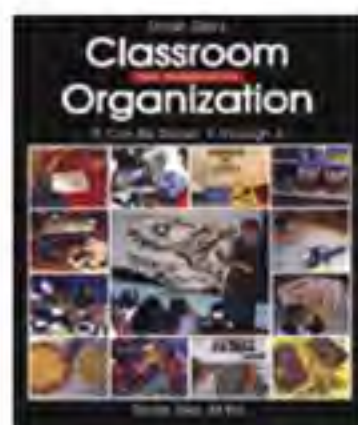

## 150 VKV® Flashcards! Prescored and Cut!

Use these index-weight, prescored VKV® Flashcards to make two-dimensional words three-dimensional, as featured in Dinah's new Language Arts VKV® book series. Each packet contains 50 of each size card—single-tabbed, double-tabbed, and triple-tabbed—for a total of 150 cards which can teach 400+ vocabulary terms. Flashcards are blank with a light grid and can be used to teach grammar and vocabulary for any subject. FC101...\$19.95

This 148-page book is the sequel to Dinah's *Big Book of Books and Activities*. It expands the use of manipulatives presented in *Big Book of Books and Activities*, and it introduces 14 folds not found in that book. The back section contains 64 duplicable pages of Dinah's publishing center graphics. CCC91...\$19.95

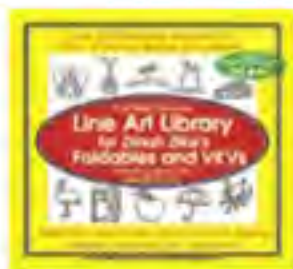

Dinah's K-6 national bestseller with hundreds of full-color photos and illustrations! A comprehensive teachers' guide to help you creatively manage your time, your energy, and the materials in your classroom. *Classroom Organization, It Can Be Done, K-6 Revised Edition* is filled with practical and effective ideas to make your life easier and your teaching more effective! MM-102...\$14.00

## Circle Graph Manipulatives

Visual and kinesthetic manipulatives that demonstrate the concepts of degrees, percentages, fractions, and time with a focus on the relationships between those concepts. Packet includes 12 sets of circle graphs and "sliders."

MM-101...\$14.00

Young children with small fingers and poor fine-motor skills can lift tabs easier if there is space between them. I used to create this space by making two cuts—one on each side of a fold line—every time I made a VKV® or a Foldable®. This technique works fine, but it is time consuming. Our Dual-Cut scissors cut two lines at the same time to form this wide space.

Dual-Cut scissors are great for making the flaps and movable tabs on your Foldables® and VKVs®. They work exceptionally well with index-weight paper and posterboard.
